QUICK REFERENCE GUIDE > RS80AU3

# 80cm Series 7 Integrated French Door Refrigerator Freezer, Ice & Water

Series 7 | Integrated

Panel Ready

This large capacity refrigerator with bottom freezer seamlessly integrates into your kitchen, fitting flush into your cabinetry.

- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
- Customise with your own kitchen cabinetry or purchase our stainless steel door panel accessory

- Slimline water dispenser available with stainless steel door panel accessory
- Spacious bottom freezer with full extension drawer and ice maker with boost function

# **DIMENSIONS**

Height 1798 mm
Width 796 mm
Depth 606 mm

# **FEATURES & BENEFITS**

Activesmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

#### Flexible Storage

Designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

#### WATER ON TAP

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your refrigerator.

#### Ice Maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space, or during busy times you can boost ice production by up to 30%.

#### Easy Cleaning

Secure, spill-safe glass shelves easily capture any drips or leaks, and can be easily removed for fast and easy cleaning.

# **Beautiful Lighting**

LED lighting illuminates the interior with a crisp, clean glow for enhanced visibility. Our energy saving LEDs use less power than comparable halogen lights.

Product Fiche

Product Information Sheet

#### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

QUICK REFERENCE GUIDE > RS80AU3 Date: 08.10.2024 > 3

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
