PERRIN & ROWE

Over forty years ago in East London, friends Bob Perrin and Greg Rowe began an extraordinary partnership. Working together, they combined a talent for design with a delight in solving engineering problems. They made their name and international reputation by producing the world's first 3-in-1 tap that dispensed filtered water through a dedicated waterway. Their ethos of British design, engineering and craftsmanship is enshrined in the Perrin & Rowe brand.

SOUTHBANK 6

SOUTHBANK COLLECTION MID-CENTURY MODERN

THE FESTIVAL OF 1951

The Festival of Britain in 1951, centred on London's Southbank, reigniting Britain's enthusiasm for design. With rationing of materials still in place after the war, designers required ingenuity and invention. Visionaries such as Ernest Race, Gordon Russell and Robert Heritage made a virtue of the limitations, establishing a new aesthetic for furniture and interiors. British Mid-Century design continues to inspire and influence.

'The Southbank exhibition triumphantly demonstrated the vitality of mid-century British design and architecture.'

Victoria + Albert Museum.

SOUTHBANK 7

FROM THE HEART OF THE SOUTH BANK

The principles of British Mid-Century design are just as relevant today. An imaginative and efficient use of materials. Elegant and organic shapes. Human-centred, designed for ease and practicality. Embracing technology while upholding craftsmanship.

Southbank by Perrin & Rowe is a tribute to the 1951 Festival designers, adopting their ideals to create a remarkable new brassware collection. Perfectly proportioned, with meticulous detail that references iconic pieces from the period, Southbank epitomises Mid-Century Modern.

SOUTHBANK
MONOBLOC SINK MIXER
WITH PULL-DOWN RINSE

From the distinctive fluted base and spout to the elegant handles that embody the ‘intersection’ joints used in the furniture of the Festival, the single-lever mixer offers a new interpretation of Mid-Century Modern.

Concealed in the spout is a pull-down rinse, reflecting the blend of practicality and refinement adopted by the period’s pioneers.

SOUTHBANK 11

SOUTHBANK 12

SOUTHBANK BRIDGE SINK MIXER WITH PULL-DOWN RINSE

Delightful references to the furniture of Robert Heritage and Gordon Russell give the Southbank Bridge Mixer a true mid-century spirit. The slim bridge with its smooth arches and the delicately-shaped levers echo key woodworking forms of the time.

Enhanced with a pull-down rinse, sheltered discreetly in the spout.

Dimensions (mm): W:200 x H:464 x D:283

Available in 8 Finishes:

SOUTHBANK
MINI FILTRATION TAP

Added function in diminutive form, the Mini Filtration tap complements the Monobloc or Bridge Mixer, offering cold filtered water for drinking. It shares the fluted base, slender lever and exquisite detailing of its big brothers. Ideally installed beside the main kitchen tap, or separately on an island sink.

Dimensions (mm): W:102 x H:266 x D:185

Available in 8 Finishes:

SOUTHBANK
MINI INSTANT HOT WATER
& COLD FILTRATION TAP

A little brother for the Southbank Monobloc or Bridge Mixer, this mini tap shares their distinguishing elements and delivering both instant hot water and cold filtered water. Gently push the lever in and back to safely dispense steaming hot water for tea, coffee or cooking, or move the lever forward for filtered drinking water.

Mount alongside the main tap, or on an island sink to fully separate cleaning and drinking water.

Dimensions (mm): W:114 x H:266 x D:185

SOUTHBANK 3-IN-1 FILTRATION TAP

Perrin & Rowe developed and patented the first 3-in-1 filtration tap over 40 years ago. The Southbank 3-in-1 Filtration Tap combines engineering finesse with Mid-Century style.

Perrin & Rowe's filtration system is one of the highest performing available, using a four-stage process to remove microscopic impurities, including bacteria, chlorine and other harmful organic contaminants. Yet it is simple to maintain – just replace the cartridge every six months.

Dimensions (mm): W:180 x H:445 x D:286

SOUTHBANK
3-IN-1 INSTANT HOT WATER TAP

The Festival of Britain delighted visitors with its predications for the future home. No one anticipated the invention of the instant hot tap, however. Perrin & Rowe’s innovative design is simplicity itself to operate. The right-hand lever is a standard hot and cold mixer, while the left lever delivers steaming hot water without spitting. Just push the safety button at the base of the lever, then move the lever back to operate.

This clever safety mechanism prevents the tap from being knocked accidentally. It cannot be left on either – on release, the lever clicks back into place.

Dimensions (mm): W:180 x H:445 x D:286

Available in 8 Finishes:

POT FILLER

The resurgence of popularity of the pot filler mirrors the revival of Mid-Century design. The convenience – even luxury – of having a long-armed tap over the stove quickly becomes indispensable to any home cook. An end to carrying heavy pans of water from the sink to the hob.

The collection’s signature style is evident in the lever, joints and mounting, making the pot filler the perfect accessory.

SOUTHBANK
SOAP DISPENSER

The final design in the Southbank collection is no afterthought. To some, the dinky deck-mounted soap dispenser is one of the loveliest pieces, exhibiting the Southbank DNA in every aspect.

The smooth pump action uses a British-made mechanism, and liquid soap can easily be filled from the top or by removing the 500ml bottle underneath the counter. An irresistible finishing touch.

SOUTHBANK FINISHES

STANDARD FINISHES:

Chrome is the most durable finish. It will maintain its lustre even with frequent cleaning. However, it is prudent to avoid harsh cleaning products which may contain corrosive chemicals.

Nickel & Pewter finishes will gently age over time.

Gold is a luxury finish made using 24 Carat Gold. It is a softer finish than chrome and more easily scratched. It should be treated as you would treat any piece of fine jewellery.

English Bronze is another delicate finish that should be looked after with care. The finish is produced using a special lacquer coating that may scratch if mistreated.

CHROME

A brilliant silver with a hint of blue.

NICKEL

A shiny finish with a golden glow.

PEWTER

A brushed nickel with a matt appearance.

ENGLISH BRONZE

A metallic brown finish with subtle notes of orange and copper.

GOLD

Plated with 24 carat gold, pure yellow in colour, with a natural glow and high shine.

POLISHED BRASS

A warm finish with coppery undertones.

SATIN BRASS

A matt finish with strong undertones of yellow ochre.

AGED BRASS

An unlacquered 'living finish' which will change as it reacts with its environment and daily use.

SPECIAL / LIVING FINISHES:

Polished, Satin and Aged Brass are unlacquered and will develop an individual patina as the brass reacts with its environment. Watermarks will appear almost immediately, and these will mature into a unique, dappled finish. Patina is a chemical process that may occur weeks after manufacturing, therefore products could be received with this added charm having already started.

PATINA EXAMPLES:

The following images represent the patina effect on our living brass finishes.

All products are manufactured in the UK from the highest quality raw materials available.

Plating on Perrin & Rowe Products exceeds the industry standard by 10 microns: standard at 15 microns, and Perrin & Rowe at 25 microns. This additional plating will ensure a deep, protective coating that is resistant to wear and tear and is very pleasing to the eye.

Each product is assembled by hand and individually water tested to ensure peace of mind.

All products include bearing rings on valves for maximum durability. Bearing rings give Perrin & Rowe products a stable “wobble free feel”. Engineering ‘O’ rings are also used. These ‘O’ rings are more durable than standard washers and less likely to cause problems due to drips and leaks.

Ceramic disc valves are supplied by Flühs of Germany, the world’s leading cartridge manufacturer.

For warranty details, see houseofrohl.design

IMPORTANT
INFORMATION

Perrin & Rowe kitchen products have a minimum recommended installation pressure of 0.2bar and a maximum recommended installation pressure of 5bar, with the following exceptions.

RINSE OPTION/SINGLE FLOW SPOUTS

Minimum recommended installation pressure:
Single flow spouts = 1bar.
Taps with rinse = 1.5bar.

Maximum recommended installation pressure = 5bar.

Rinse hose standard length = 1200mm.

Rinse hose not to be connected directly to cold mains;
separate from main mixer.

All rinse options have single flow spouts.

Perrin & Rowe is manufactured by TCL Manufacturing Ltd.

Due to TCL Manufacturing Ltd continuing policy of product development, we reserve the right to modify or alter designs at our discretion.

TCL Manufacturing Ltd Terms and Conditions
are available upon request.

All measurements shown in this document are in millimetres (mm),
unless stated otherwise.

WELCOME TO THE
HOUSE OF ROHL

The House of Rohl is a collection of artisan
brands recognised for their artistry and heritage.

SHAWS
FIRECLAY SINKS

The genius of founder Arthur Shaw was to identify the waste material extracted from the colliery at Darwen, as fireclay. In 1897 he established Shaws of Darwen to make use of it. Today, at the same factory in Northern England, Shaws’ own Heavy Duty Fireclay is fired hotter and longer to produce kitchen and bathroom sinks with an incredibly durable finish.

RIOBEL
CONTEMPORARY BRASSWARE

Quebec is where European culture meets North American spirit. In this vibrant city, Riobel design distinctive and innovative brassware, inspired by the sculptural forms of contemporary architecture. Beneath the surface, industry-leading engineering delivers performance and reliability. Riobel offers luxury designed to be lived with.

VICTORIA + ALBERT
BATHS AND BASINS

To make beautiful baths and basins of the highest quality, Victoria + Albert developed their own unique material. Made from natural Volcanic Limestone™, QUARRYCAST™ is light, warm to the touch and incredibly strong. This gives Victoria + Albert’s designers the freedom to create award-winning designs that can last a lifetime.
